- Yes
- No
- In part

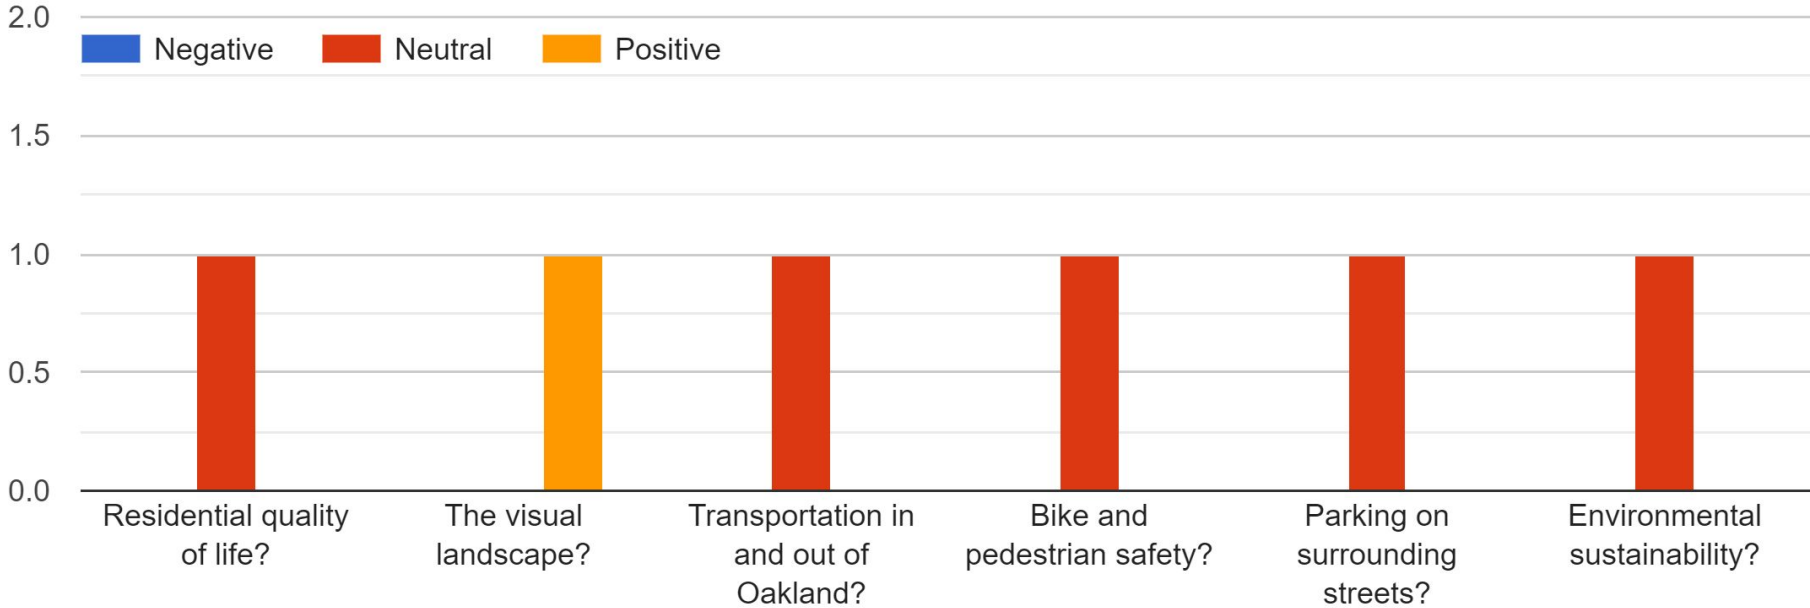

# How well did you feel the University of Pittsburgh explained...

How well did you feel the University of Pittsburgh addressed your concerns with:

# How would you describe the proposed project's impact on...

The University's plans focus on historic preservation (for example, reinstalling the current facade in front of a new building), urban design, and the pedestrian experience. Do you have any specific questions or feedback related to these areas of focus?

Happy to see the attention given to historic preservation.

Do you have any additional comments about this project?

I applaud the cooperation between University of Pittsburgh and Preservation Pittsburgh. Wish we could see more of this in the community rather than demolishing structures that are important to our history.
